PREPARATION OF THIS REPORT

During the past several years the Fisheries Department of FAO, as part of its work on the development of the Aquatic Sciences and Fisheries Information System (ASFIS), has collected bibliographic details of serial publications (journals, report series, etc.) which regularly include papers on the science and technology of marine and freshwater environments. A list of the titles identified at that time was first published in 1963, and since then the demand for a revised version giving more bibliographic detail has steadily increased.

A preliminary edition, published in 1975, listed bibliographic information on over 1200 titles which are routinely monitored for Aquatic Sciences and Fisheries Abstracts (ASFA). This publication lists information on a further 600 titles, also monitored for ASFA, and includes information needed to update the preliminary edition.

The list as published herein was prepared by Mrs. Gillian Dore-Medichini, with the collaboration of ASFIS input-centres at the All-Union Institute for Oceanographic and Marine Fisheries Research (VNIRO) Moscow, Bundesforschungsanstalt für Fischerei (BF) Hamburg, Centre National pour l'Exploitation des Océans (CNEXO) Brest, Information Retrieval Limited (IRL) London, Institut National de la Recherche Agronomique (INRA) Biarritz, Marine Biological Association of the United Kingdom (MBA) Plymouth, and the National Oceanic and Atmospheric Administration (NOAA), Washington, D.C.

INTRODUCTION

This supplement to the Preliminary Edition (August 1975) of the "World List of Aquatic Sciences Serial Titles" gives bibliographic details on an additional 600 serials monitored for the Aquatic Sciences and Fisheries Information System (ASFIS) - an international information system for the science and technology of marine and freshwater environments. It also includes a separate section containing amendments needed to update the information published in the Preliminary Edition.

The amendments to the Title Index of the Preliminary Edition can be found on pages 1-9. The amendments to the Corporate Name Index of the Preliminary Edition are on pages 11-15. Page 17 lists titles in the Preliminary Edition which have ceased publication.

Supplementary Title Index (pages 19-127)

Serials are arranged alphabetically under their published titles. If the title is generic, e.g., Bulletin, Research Report, it has been expanded to include the name of the corporate body by which, or under the authority of which, it is issued.

Serials that have ceased publication have been excluded, while superseded titles, title changes, and changes of corporate names included in nondistinctive serial titles, have been entered as cross references in order to assist the user in identifying the current title.

In the case of multilingual serials all the titles used have been entered in the title entry, beginning with the first title given on the publication. Cross references have been made from all alternative titles.

The following elements have been included in each serial title entry (when available):

Serial title/translated title
Abbreviated title according to "International List of Periodical Title Word Abbreviations prepared for the UNISIST/ICSU-AB Working Group on Bibliographic Descriptions"
Name of issuing body/sponsoring organization
Name of publisher
Place of publication
Year first published or year of earliest known issue
Frequency
Former title(s)/subtitle
Series statement, noting subseries, supplement, or numbering information
Language(s) of text and of summaries, when these differ from the language of the title
Abstracting or indexing service(s) in which the serial title is listed
Country code and International Standard Serial Number

Supplementary Corporate Name Index (pages 129-166)

The Supplementary Corporate Name Index lists issuing and sponsoring bodies as main headings, with the titles for which they are responsible as they appear in the Supplementary Title Index.

As a general rule the names of corporate bodies have been entered according to the Anglo-American Cataloguing Rules, under their vernacular form, with cross references from alternative forms. Where it has not been possible to determine the vernacular form of the name, the corporate body has been entered in the form used on the publication of which it is author, publisher, or sponsor.

Corporate bodies through which the legislative, judicial and executive functions of a government are exercised, have been entered as a subheading under the government jurisdiction of which they are a part.

In the case of such corporate bodies as commercial, cultural or scientific organizations, institutions, trusts, corporations, or other specific enterprises, which are created and controlled by a government, entries have been made directly under their own names.

Abbreviations used for Frequency of Publication

A	Annual	Bi-w.	Bi-weekly
M	Monthly	Semi-a.	Semi-annual
Q	Quarterly	Semi-m.	Semi-monthly
W	Weekly	Tri-a.	Triennial
Irr.	Irregular	6/a. etc.	6 times a year etc.
Bi-a.	Biennial	2-3/a. etc.	2 or 3 times a year etc.
Bi-m.	Bi-monthly		

Language Codes

Afrikaans	Af	Japanese	Ja
Albanian	Al	Kazakh	Ka
Armenian	Am	Korean	Ko
Arabic	Ar	Latin	La
Azerbaijan	Az	Latvian	Lv

Indonesian	In	White Russian	Be
Italian	It		

Notes on Alphabetization

Added places of publication are ignored for filing purposes.

An oblique slash (as in Memoires/Verhandelingen) is treated as a space.

Gt. is filed as Great.

Acronyms are filed as if a word, regardless of whether or not they have periods between the letters.

U.S.A. is filed as if a word USA.

Hyphenated words are treated as if they are one word, provided both words are meaningful. i.e. Inter-American before Intergovernmental.

Diacritical signs are ignored.

Abbreviations used for Abstracting and Indexing Services

Abr.Read.Guide Period.Lit.	Abridged reader's guide to periodical literature
